

Iowa Academy of Science Membership Referral Program

Current Professional and Student IAS members—refer a new professional member to the Iowa Academy of Science and receive a \$10.00 discount on the following year's dues. The more members you refer, the more you can save, up to your full membership dues! That's right, a professional IAS member who successfully recruits 6 new professional members into the Academy in one year will pay \$0.00 in dues the following year!

New Professional Members receive a discount too! Through this special offer, new IAS professional members may join for \$50.00, a savings of \$10.00.

The details: The referred individual must become a professional member of IAS and must identify the current member as his/her recruiter. Only one current member will receive credit for each new membership. A new member is anyone who has never been an IAS member, or who has not been a member for three years or more. A referral credit is good for only one year.

Two ways to refer new members:

1. Provide the IAS office with the contact information for potential new members by completing the back of this form. Be sure to include your name. IAS will send each individual a letter indicating that they have been nominated for membership.
2. Encourage new members to join using the IAS website application form (<http://www.iacad.org>). Be sure to instruct them to list you as the reason they are joining IAS.

What if I am an Emeritus, Lifetime, or Distinguished member of IAS? IAS encourages you to participate in this program and recruit new members too. The Iowa Academy of Science needs a thriving active membership of scientifically minded Iowan citizens in order to remain a viable organization and protect programs like the Junior Academy of Science, the IAS Annual Meeting, and the Emeritus member program.
